# Site Security

## **CKEditor 5 - What you need to know**

Today's release - on **CKEditor 4** - nothing changed for Content Editors just yet

**CKEditor 5** - all plugins are ready in development branch, team is working on Upgrade Path and documentation

**Drupal 10 can work with CKEditor 4**, even after EOL (End of Life) - no security issues for the distribution, because we are not allowing anonymous users using it.

We are going to release CKEditor 5 in next release.
